Loose Wet Avalanche in the Bridgers

Frazier Basin
Bridger Range
3/9/2024
Code
WL-N
Aspect
SE
Latitude
45.92330
Longitude
-110.98000
Notes

From obs: "Skied into Frazier basin today. Saw multiple wet loose slides on the SE face across the basin. Winds were stripping many ridge lines and loading N aspects. No avalanches related to wind loading were observed. Pit at the bottom of the basin on a SE aspect around 8200 feet had HS 185 and showed Ectx."
