Skier Triggered Avalanche, Lone Lake Cirque

Lone Lake Cirque
Northern Madison
4/9/2023
Code
HS-AS
Latitude
45.27710
Longitude
-111.46400
Notes

From email: "There was yet another skier-triggered avalanche out in the Lone Lake Cirque this afternoon. Sounds a like a cornice trigger (not sure if it was intentional) that triggered a large slab on the slope below and ran full track. I do not believe the involved party rode the avalanche but it was another close call. This was adjacent to the one triggered a couple of days ago which was adjacent to the one triggered a few days before that."
