Natural avalanche at Daisy Pass, Cooke City

Daisy Pass
Cooke City
2/28/2021
Code
SS-AMu-R2-D1.5
Elevation
10000
Aspect
SW
Latitude
45.04970
Longitude
-109.96400
Notes

From obs: "Here are two photos of what I think is a natural slide from this morning (3/1). Looks like a natural slide across from Crown Butte at the top of Daisy Pass. Crown is at least a few feet."

From another rider: "we spoke with a snowmobiler on the trails on Sunday and he mentioned his group initiated that slide Sunday morning."

Forecaster note: The paths immediately to the left and right of this slope avalanched with a snowmobile trigger on 2/13. Photos and video are here: https://www.mtavalanche.com/node/24256
