10000
Aspect
SW
Latitude
45.07210
Longitude
-109.95400
Notes

From email: "Observed what looked to be a natural release avalanche below a cornice on the upper aspects (northwest) of Scotch Bonnet today. Didn't get too close to it , but would estimate it ran up to 50ft wide and a few hundred feet down slope from the cornice where it released."
