Snowmo triggered small slide at Lionhead

Lionhead Ridge
Lionhead Range
4/1/2024
Code
SS-AM-R1-D1.5-O
Aspect
E
Latitude
44.71450
Longitude
-111.31800
Notes

On 4/2/24 we saw a small slab avalanche that occurred since this weekend's snow. It appears to have been triggered by a snowmobile yesterday (4/1/24). It broke 10" to 2 ft deep, 50 ft wide, and ran ~50 vertical feet. It broke on a thin layer of facets beneath the new snow.
