Natural activity in Beehive

Beehive Basin Northern Madison 2/15/2019 Code SS-N-R2-D1.5 Notes

On Saturday (2/16) skiers in Beehive observed "Lots of natural avalanches from Friday nights snow. Notice the large <u>cornice</u> sections at the base of the slope. We were impressed with the size of the cornices on the ridge. We noted no collapsing or cracking on the skin up or ski down."
