Natural Avalanches, Thunderer Mountain

COOKE CITY Cooke City 2/21/2021 Code SS-N-R2-D2 Elevation 9700 Aspect

W

Latitude

45.02020

Longitude

-109.93800

Notes

From email: "I saw some older <u>slab</u> avalanches on The Thunderer mountain, in northeast YNP (observed today). These avalanches happened on westerly aspects around 9700'. I'd hypothesize that they happened in correlation with the very strong westerly winds that happened around Feb. 21-22."

Number of slides

2
